Our goal is to achieve a "one-stop" service for farmers.

COMPANY PROFILE
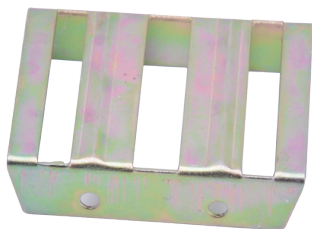

WELCOME TO HANGZHOU OPUS FENCE SUPPLIES CO.,LTD

H.P.S. was created in 2013 with the aim of our main products being farm tools. Since then we have gradually moved into the plastics and electronics industries by constantly developing electric fencing products. As a leading Chinese manufacturer of electric fences,H.P.S. Exports its products around the world.

Through technological innovation and product optimization, we continue to improve our products. We offer a wide range which include insulators, fence tools, fence testers, fence energizers, and accessories.We export our technology worldwide.

We are not only sales exporters,but are the manufacturer of the majority products we sell. We have our own factory set up with the purpose manufacturer only for H.P.S.. We have worked in cooperation with our customers to meet their needs which have also witnessed our growth. We treat every customer's enquiry with honesty and integrity to allow us to answer each customer's question with the best solution at the most competitive and reliable price, and to the most attentive service to meet customers' requirements. Our goal is to achieve a "one-stop" service for farmers.

Features

☑ Get both ends of the tape and insert through one of the ends slots of the 20 mm tape connector

☑ Loop at the two ends of tape over and insert through the middle slot.

☑ The two ends of tape then come back from the underside of the connector and go up through the end slot.To create and S shape.

☑ Taking the two ends of tape and take them back down through the first slot.This is the first slot that was used in the top image.

☑ If required gently adjust the length of tape to suit.

☑ Pull the tape tight and the connector is finished. We find this 40 mm electric fencing tape connector to be both exceptionally strong and very conductive.

## TPR003

Product Parameter

Item Name	Tape connector
Item No	TPR003
Type	Fencing,Trellis&Gates
Material	Stainless Steel
Unit Weight	11.3g
Fit for	Up to 20mm, 40mm tape
Paking Size	36*36*13cm
Color	Sliver
MOQ	1000pcs

Use Flow

Features

☑ Easily connects one strand of polytape to another

☑ You can use this to hook a gate handle if you want to make your own gates.

☑ These tape ends are a must if you are using 1" polytape

☑ Connects one polytape to another without losing juice

☑ These ensure a good continuity of current between tapes - essential for an effective electric fence. If a fence made from electric tape is tied together then it is inevitable that many conductors will not touch each other and the fence loses effectiveness as it extends away from the energiser. These buckle type connectors allow one tape to join to another without any loss in conductivity as the connector becomes "live" and all the conductors in each tape become electrified.

TPR004

Product Parameter

Item Name	Tape connector
Item No	TPR004
Type	Fencing,Trellis&Gates
Material	Stainless steel
Unit Weight	8.5g
Fit for	20mm/40mm tape
Paking Size	1000pcs/ctn
Color	36*36*13cm
MOQ	1500pcs

Features

☑ Two lines of metal to hold tape

☑ Thread two lines of tape into connector and tighten and it will join the tape and pass the current through the connector.

☑ Will make the fence look neat by not twisting the tape.

☑ Electric connection much better than just tying the tape together.

☑ Tape will occasionally break, or be cut. Similarly a gate is essential. With this in mind, HPS has developed purpose designed gates and joining buckles plus other spare parts to keep the system in trim and looking neat and tidy.
